While files from the Internet can be useful, this file type can potentially harm your computer. If you do not trust the source, do not run or save this software. What's the risk?			

4. Click Run. Follow all instructions to download and install Trimble Access Installation Manager.

Starting the Trimble Access Installation Manager Software

1. Click on Start/All Programs/Trimble Access Installation Manager.

🔅 Trimble Acc	ess Installation Manager 1.10.95.0	
Device status: Organization: Install status:	Not connected	
Help	Release notes	Start

2. Establish a connection between your computer and the TSC2.

If your computer operating system is Windows XP or earlier use Microsoft ActiveSync.

If your computer operating system is Vista or Windows 7 use Mobile Device Center.

3. Close out of the Trimble Access software on the TSC2 by tapping the 🖾 at the top right.

4. After the connection is established you will see the Trimble Activation Manger connecting to the server and informing you what is currently installed on the TSC2 and what can be installed.
