4. Click Run. Follow all instructions to download and install Trimble Access Installation Manager.

## Starting the Trimble Access Installation Manager Software

1. Click on Start/All Programs/Trimble Access Installation Manager.

2. Establish a connection between your computer and the TSC3.

If your computer operating system is Windows XP or earlier use Microsoft ActiveSync.

If your computer operating system is Vista or Windows 7 use Mobile Device Center.

3. Close out of the Trimble Access software on the TSC3 by tapping the 🖾 at the top right.

4. After the connection is established you will see the Trimble Activation Manger connecting to the server and informing you what is currently installed on the TSC3 and what can be installed.
